

ASSIST

"Great to speak to someone not reading from a crib sheet with ready prepared answers."

Why choose RiskSTOP ASSIST?

Underwriters face major barriers when it comes to improving risk. On average, only a third of risk improvement requirements are ever complied with. Even when policyholders do comply, they usually take more than 100 days to do so.

RiskSTOP ASSIST improves risks quickly by providing assistance to policyholders from the moment risk improvements are required. In other words, **we help policyholders take action.**

We make it clear what's needed and by when. We use our expertise to help policyholders source approved risk management products and services. Our advisers are on hand to offer important information and guidance. And we always make sure policyholders and suppliers are aware of deadlines to ensure requirements are completed to specification and on time.

So does it work? The answer is yes. **When underwriters use RiskSTOP ASSIST 95% of risk improvement requirements are complied with within agreed timeframes.**

- RiskSTOP is independent of any risk management product or service provider, so the guidance we give to policyholders is totally impartial.
- RiskSTOP ASSIST can embrace any type of risk, ranging from high net worth homes to SMEs and major corporations.
- RiskSTOP ASSIST has already helped more than 500,000 policyholders comply with over 1,500,000 risk improvement requirements in just 9 years.
- RiskSTOP ASSIST policyholders are highly satisfied and continually rate the service as "above average" to "excellent".
- RiskSTOP ASSIST reduces risk. Underwriters that use ASSIST report reductions in the number and cost of claims.
