

# SUPPORT

**"Very friendly and patient. Could not have been more efficient and helpful."**

## Why choose RiskSTOP SUPPORT?

Sometimes risks aren't quite how they appear. That's why underwriters like surveys. They're reassuring.

However, surveys aren't always practical. It isn't usually cost effective to survey low-risk cases. And with smaller risks, it can cost more to visit and report back than the premium paid.

But what about the one low-risk case in 10 that turns out to be not what you'd expect? What about the small risk that leads to a big claim? And what about the smaller policyholder - wouldn't they value some risk management help too?

RiskSTOP SUPPORT is a unique self-assessment questionnaire that paints an **accurate picture of the risk you've taken on, without any need for a survey.**

Just like a survey, it produces risk improvement requirements to help reduce claims. And by gathering additional information RiskSTOP SUPPORT produces **a Risk Control Plan for policyholders** to help them manage risks and comply with their statutory obligations. Things like:

- Carrying out a fire risk assessment
- Putting a business continuity plan in place
- Ensuring electrical inspections have been done
- Completing health and safety risk assessments

Combined with RiskSTOP ASSIST, RiskSTOP SUPPORT is a powerful way of improving more of your risks, reducing claims and ensuring policyholders get real value from the risk management process.

Find out more about how RiskSTOP SUPPORT can improve more of your risks. Call us on **01305 215500**, email [general-enquiries@riskstop.co.uk](mailto:general-enquiries@riskstop.co.uk) or visit our website at [www.riskstop.co.uk](http://www.riskstop.co.uk).
